

HOME USE OF LAPTOPS

The Gorham School Committee encourages thoughtful and integrated use of technology by students. To support that goal, students may take home laptops provided under the Maine Learning Technology Initiative (MLTI) if the following conditions are met:

1. The student's parent attends an orientation meeting and agrees to the *Guidelines and Procedures*.
2. The student's parent agrees to be responsible for loss or damage to the state's property through negligence or misuse.
3. A signed *Acceptable Use Policy* and *Laptop Sign-Out Permission Form* is on file at the school.

The Superintendent will develop informational materials and procedures to implement this policy.
